ABOUT ME

I am passionate about building scalable backend systems and AI-powered applications, with a strong interest in Natural Language Processing, and developing reliable, production-ready AI solutions.

WORK EXPERIENCE

Bichitras Group

City: Lalitpur | Country: Nepal

[03/07/2024 - 02/03/2026]

Python Developer

- Built and deployed RESTful APIs using FastAPI for core live-streaming features.
- Designed backend services to support AI-powered products, integrating AI models to deliver intelligent application features.
- Designed and optimized PostgreSQL database queries to improve API performance and data retrieval.
- Established API documentation and contributed to code reviews, testing, and continuous improvement of backend services.

Idea2MVP

City: Lalitpur | Country: Nepal

[12/02/2024 - 14/05/2024]

Python Developer Intern

- Contributed to backend development using Django and PostgreSQL
- Integrated Generative AI capabilities into existing product pipelines with LangChain and OpenAI's (chat and whisper) APIs.
- Developed automation scripts to streamline internal workflows using selenium and celery.

SKILLS

Machine Learning

PyTorch | TensorFlow | HuggingFace | pandas | numpy | LangChain | RAG | LLMs | NLP | CV

Programming

Python | C | C++ | JavaScript | Bash | PowerShell | FastAPI | Django

Tools & Technologies

Git | Docker | ML Flow | GitHub Actions | Selenium | Playwright | n8n | Azure | AWS

PUBLICATIONS

[2026]

[Abstractive Summarization of News Articles Using BART \(pre-print\)](#)

Journal Name: POKHARA ENGINEERING COLLEGE JOURNAL (pecj)

[2025]

[Integrating Automatic Speech Recognition and Emotion Detection: A Conformer-XGBoost Framework for Human-Centered Systems](#)

Journal Name: Journal of Artificial Intelligence and Capsule Networks (jaicn)

EDUCATION & TRAINING

[01/07/2021 - 31/08/2025]

Bachelor of Computer Engineering

Pokhara University

Final grade: 3.64/4.0

Artificial Intelligence | Natural Language Processing | Data Mining | Probability and Statistics

CONFERENCES & SEMINARS

[13/11/2025 - 14/11/2025]

The International Conference on Emerging Trends in Engineering and Technology (ICET 2025) Pokhara, Nepal

Presented a paper on "Abstractive Summarization of News Articles Using BART"

Link: <https://www.pec.edu.np/conference>

HONOURS AND AWARDS

Merit Based Scholarship Awarding institution: Gandaki College of Engineering and Science

[01/01/2024]

Winner - Coding Competition Awarding institution: IT Expo 2024 - Gandaki College of Engineering and Science

PROJECTS

Automatic Speech Recognition and Speech Emotion Detection using Conformer-XGBoost

Link: <https://github.com/kayceem/Automatic-Speech-Recognition>

In-Browser Proctoring AI using YOLOv8, DeepFace, Gaze Tracking

Link: <https://github.com/kayceem/in-browser-proctoring-ai>

Fine-Tuning BART for News Summarization

Link: <https://github.com/kayceem/News-Summarization>

Face Emotion Detection using YOLOv8

Link: <https://github.com/kayceem/face-emotion-detection>

RAG-based Customer Support System

Link: <https://github.com/kayceem/customer-support-be.git>

Diabetes and Pneumonia Prediction using RandomForest and RNNs

Link: <https://github.com/kayceem/MediScan.git>
